

KYNAN PARKER-ROTH

PROFILE

I am ambitious and analytically minded, currently looking to take the next step in my career.

My ability to adapt and learn quickly enables me to improve and develop no matter the challenge. This is something I consider to be very important for personal and professional growth.

EDUCATION

Full Stack Web Development | Career Foundry
Ongoing
Physics | Salford University
2017 - 2018 | Completed first year of an integrated masters course
A-Levels | Beaumont School, St Albans
2015-2017 | Physics B, Maths B, Chemistry C, AS Psychology D
GCSEs | Sir Frederic Osborn School, Welwyn Garden City
2010 - 2015 | 9 A*-C including English, Maths and Science

PERSONAL DEVELOPMENT

I am currently enrolled in a course which aims to 'teach all of the skills, tools, and processes needed to become a web developer'. Self-studying requires me to manage my time well as I am doing it alongside full time work, but I am very enthusiastic about it.
I am the elected Webmaster for Fool's Gambit Morris, managing the website for my Morris dancing team.

PROFESSIONAL EXPERIENCE

Commercial Finance Analyst | Irwin Mitchell | Sheffield
May 21 - Present | Starting on a fixed term contract, I was offered a permanent position at this nationally renowned solicitors:

- Building and maintaining dashboards using Tableau & PowerBI servicing the whole business, from board level management to solicitors.
- Answering ad hoc queries that required comprehensive knowledge of the large data structures maintained by the company.
- Writing custom SQL queries to improve efficiency and usability of reports.
- Testing and feeding back on the inhouse databases being developed for the Commercial Finance team.

Finance Data Analyst | ITM Power | Sheffield
Jan 20 - May 21 | Joining this world leading green-energy company, I took on the responsibility of monitoring all grant claims and provided operational support to the finance team:

- Compiling financial data for submission to grant bodies and handling audits.
- Creating high quality reports to support project managers in accessing relevant financial data in a straightforward and timely manner.
- Improving data literacy across the team by providing weekly Excel training sessions - including pivot tables, advanced formulas and macros.
- Improving process by implementing VBA driven macros, Power Automate and simple scripting such as PowerShell.

Compliance Officer | Environment Agency | Sheffield
Aug 19 - Dec 19 | A temporary position involving:

- Processing applications whilst adhering to and assessing within the strict regulations laid down in EU and UK law.
- Collating and disseminating information on high risk and fraudulent operators.

Administration Assistant | Nomical | Manchester
Oct 18 - Jul 19 | At this fast paced and high-pressure tech start-up, I took up an incredibly diverse role:

- Managing and organising engineers by scheduling jobs, creating checklists as well as diagnosing and assisting with technical issues.
- Configuring and repairing computer equipment, ensuring compliance with data protection laws and ensuring sufficient security.
- Standardising and documenting previously inconsistent processes.
- Manning the overflow line for the service desk.

Intern - Database Management | Affinity for Business | Welwyn Garden City
July 18 - Oct 18 | An internship at a national water company:

- Cleansing/updating the database to expedite the transition between an outdated bespoke CRM system and Salesforce.
- Revising the account hierarchy for key accounts to enable more efficient analysis of customer data.
